

HANGON

ASSEMBLYAI VOICE AGENT API · PRODUCT PREVIEW

VOICE INTAKE FOR ACCOUNTABLE WORK

Voice intake that keeps intent intact.

Most intake systems optimize for collecting fields. **HangON optimizes for preserving intent.**

Speak naturally. Confirm clearly. Follow through.

LIVE REQUEST PREVIEW

AWAITING CONFIRMATION

“I need a follow up for a delayed installation, routed to **operations** today.”

HangON reads the request back before anything is prepared.

[Confirm details](#)**01 · LISTEN**

AssemblyAI realtime voice session

02 · STRUCTURE

Workspace prompts and tools

03 · VERIFY

Signed confirmation and idempotent handoff
